ABOUT ME

I am a highly skilled and motivated software developer with expertise in front-end development. I am currently seeking a challenging position as a front-end developer, leveraging my experience in full-stack development using C# and proficiency in Entity Framework.

Having worked as a full-stack developer, I possess a holistic understanding of the development process, from back-end server-side logic to front-end user interfaces. I am proficient in C# and have experience in building RESTful APIs using ASP.NET Web API.

Driven by my passion for coding, I am always eager to take on new challenges and continuously improve my skills, additionally, I am open to exploring opportunities internationally and have a strong interest in working in locations such as Dubai, USA, or Australia, to broaden my horizons and gain global exposure.

WORK EXPERIENCE

Teach Lead - Front End Team / ReactJS Developer

Alten [08/01/2022 – Current]

City: Madrid

Country: Spain

- I designed and developed the Front End part of the new project, aimed to all the Spanish companies to have the possibility of check their circular economy circle. The website is: <https://autodiagnosticoeconomico.circular.ipyme.org/>
- The project will have thousands of visits each day, the API we also created is well prepared to do it thanks to the onion architecture we implemented and thanks to our IIS servers.
- Specializing in React and Material UI technologies.
- Leading the front-end team in designing, developing, and maintaining applications for the Spanish Ministry of Industry.
- Collaborating with other team members to define technical requirements and ensure high-quality code and performance.
- Providing technical guidance and mentorship to team members to enhance their skills and productivity.

Full Stack Developer

Agropelayo [03/01/2022 – 08/01/2022]

City: Madrid

Country: Spain

- Implementation of new procedures to automate tasks in vb .Net
- Project updates to implement new technologies as React.
- Influence in our Jira team to maximise productivity.
- Update procedures in Sql Server.
- Bring experience in app developing to create an app aimed to offering better experience to customers.

My main achievements in this job are:

- Improve my vb .Net and C# skills to be able to create solutions that meet company's needs.
- Improve my frontend skills in vanilla Javascript to be able to finish my React course and be strong in the frontend.
